10 Noble cards

At the beginning of the game, the development cards will be shuffled and placed in the middle of table. 4 cards from each stack level as well as the noble cards will be revealed.

The tokens will be placed in the middle

GAME OVERVIEW

Hello there, welcome to Splendor!

Here's a little information about this game. During the game you can take gem tokens to purchase for development cards. By purchasing card, you can earn prestige points or bonuses. The bonuses can be used to buy other cards with less cost. When you've collected enough cards, you will immediately earn a noble card. The game ends when a player has at least 15 points

While playing the game you can choose one of these options on your turn:

- Take tokens
- Buy card
- Reserve card
- Undo/Redo
- Ask for tips

• TAKE TOKENS

There are 2 options for taking tokens:

1. Take 3 tokens

By choosing to take 3 tokens, you can take 3 different tokens (except the gold token)

2. Take 2 tokens

With this option, you can only choose 2 tokens from the same stack (except gold), if the stack has at least 4 tokens

However, you are not allowed to have more than 10 tokens. If there are more than 10 tokens in your hand, you have to put it back

• BUY CARD

To buy an opened card you must have enough gems to purchase for that card. The card can be paid with tokens or with bonuses for less cost. By buying card, you can collect prestige points

In this example, you can earn this green bonus with 5 points, if you pay 3 green tokens and 7 blue tokens

• RESERVE CARD

What if you don't have enough tokens to buy your wishing card? Good news, you can reserve it. By reserving card, you can take any card you want and you must also take one gold token, however, you can not reserve more than 3 cards. This gold token can be used as any other token. In order to get rid of reserved card, you have to pay for it

• UNDO/REDO

By clicking Undo, you can take back your last action

By clicking Redo, you will get to the action before it was undone

• TIPS

Don't know what to do? Clicking Tips will surely help you!

• NOBLE CARDS

If you've collected enough bonuses, a noble will visit you. Every noble card values 3 prestige points.

- **ENDGAME**

The game will end, if there's a player, who has reached 15 prestige points.

However, if there's no more valid moves, the game will end with tied result.

That's all for now. Have fun :)
